

First Name	Last Name	Poster Title	Student
Mariam	Al-Angari	SEA TURTLE MULTI-STAGE SATELLITE TRACKING, ACOUSTIC TELEMETRY, AND LIGHT POLLUTION IMPACTS	No
Henry	Allard	Three Years of the C-SIG Coastal Taxonomic Resource Tool – A shared knowledge base for coastal macroinvertebrate surveys	No
Gesica	Aroca	Restocking with aquaculture-sourced mussels for benthic restoration under participatory co-management: the case of <i>Choromytilus chorus</i> in C	No
Erik	Behrens	ML-based Subseasonal-to-Seasonal Forecasting of Marine Heatwaves over the Southwest Pacific and New Zealand	No
Erin	Bell	THE EFFECT OF PELLET HYDRATION ON THE PERFORMANCE OF JUVENILE CHINOOK SALMON (<i>ONCORHYNCHUS TSHAWYTSCHA</i>) FEEDS	No
Lucy	Campbell	Determining the relative roles of temperature and light in the mass bleaching event of sponge <i>Cymbastela lamellata</i> during marine heatwaves.	Yes
Katie	Cook	Climate change risk assessment of significant coastal marine habitats around the Wellington Region	No
Liv	Cornelissen	The influence of the Drygalski Ice Tongue and Ice Shelf Water on ocean processes in Terra Nova Bay	Yes
Josie	Crawshaw	Improving How We Share Water Quality Information: Interactive Dashboards for Freshwater and Coastal Monitoring	No
Oonagh	Daly	Growing the Next Generation of Marine Detectives	No
Greer	Gilmer	Developing sediment core chronologies to quantify accumulation rates and organic carbon burial in Fiordland marine basins	No
Caitlin	Grosvenor	From canopy to current: tracking the journey and chemical evolution of kelp detritus	Yes
Kentaro	Kawai	Initial insights into under-ice fish assemblages near Adélie penguin breeding colonies from eDNA metabarcoding in Lützow-Holm Bay, East Anta	No
Mia	Langley	Anthropogenic impacts on the reproduction of the southern rock lobster (<i>Jasus edwardsii</i>)	Yes
Eva	Leunissen	Comparing abundance and presence-absence models of fish species: ecological factors underpinning their accuracy and validity	No
Usangi	Maldeniya	The role of temperate sponge-associated microbiomes in enhancing sponge holobiont acclimation to marine heatwaves	Yes
Seamus	O'Mahony	Artificial habitat creation on hard armouring structures	No
Abigail	Parker	Spatiotemporal variation in the distribution of Hector's dolphin (<i>Cephalorhynchus hectori</i>) nursery groups at Banks Peninsula, New Zealand	Yes
Stephanie	Shaw	Subtidal Seagrass Mapping in Bluff Harbour: a survey of current distribution and depth extent of the seagrass <i>Zostera muelleri</i>	Yes
Thomas	Smith	Spatial assessment of environmental pressures from coastal land-use on marine ecosystems in the Northland region of Aotearoa, New Zealand.	Yes
Aidan	Stockley	Mapping benthic habitats on a fringing reef in the Solomon Islands	Yes
Niamh	Tasker	The double-trouble facing triple fins; The impact of increasing ocean temperatures and decreasing pH on the embryonic development of triplefin	Yes
Aimee	Van Der Reis	Exploring the diet of the vulnerable spotted shag: A first-pass analysis	No
Emily	Williams	Habitat use of different age and sex classes of bottlenose dolphins (<i>Tursiops truncatus</i>) in Fiordland, New Zealand	Yes
Nelli	Zaiko	Gut Microbiome Dysbiosis in Live-Stranded vs Bycaught Common Dolphins (<i>Delphinus delphis</i>)	Yes
